### **Inteck, Inc. Hires Innovative Practice Director**

**DENVER, COLORADO, June 24, 2008.** Inteck, an information technology (IT) consulting firm for the healthcare industry, is pleased to announce the appointment of Frank Nosalek Director, Consulting Services. Mr. Nosalek has over 15 years of experience in healthcare, information technology and consulting services.

Mr. Nosalek will be responsible for General Consulting and Technology activities, which includes working with hospitals to help them develop their IT plans and select and install the appropriate HIS for their organization. Additionally, he will be responsible for ensuring that hospitals have the appropriate security and infrastructure to support their IT systems. Finally, his practice will enable hospitals to provide high-speed connectivity with other providers in their community. Satisfying these goals requires high-speed, easy-to-use, yet secure connectivity with all of the different databases.

"I am proud to announce that Frank Nosalek will be spearheading new areas within technology and outsourcing which have traditionally been difficult to address within the healthcare arena," states Mr. Donald Jacobs, President. Nosalek has a solid understanding of the industry's unique needs. He has experience in IT planning, system selections and system implementations, including process improvements that maximize IT usage.
