### ***Inteck Enhances Services with a new Technology Service Director***

**DENVER, COLO., September 20, 2005** — Inteck, an information technology (IT) consulting firm for the healthcare industry, is pleased to introduce Ray G. Dunn, MBA, CPHIMS as Director, Technology Services.

Mr. Dunn will be responsible for ensuring that hospitals have the appropriate technology to enable clinicians to access patient information when needed. Satisfying these goals requires integrated databases, and high-speed, easy-to-use; yet secure connectivity throughout the organization.

Mr. Dunn is a leader in the healthcare and information technology sectors, with extensive management and consulting experience including roles as Consulting Group President, Outsourcing VP/General Manager, CIO, and Program Manager. Most recently he was President and co-founder of a Healthcare IT consulting firm, helping clients with a broad range of operational issues, technology planning, and changes in the regulatory environment. He has over twenty-five years of experience managing business units, leading people and project teams, and delivering results in support of strategic business initiatives.

In these roles, Mr. Dunn has worked with healthcare providers and payors to identify opportunities to more effectively manage resources and costs, and build quality IT organizations. Utilizing an ASP Model, he led a team of clinicians and software developers in the creation of a commercial web-based Compliance and Performance Improvement benchmarking toolset. Mr. Dunn has been responsible for numerous client projects including strategic planning / system selections, technology migrations, MSO development, HIPAA Compliance, and JCAHO preparation.

Since 1982, Inteck has provided IT consulting services to the healthcare industry. Inteck specializes in aligning an organization's IT plan with its vision and business plan. Inteck provides services in the area of optimization and enhancement of existing systems; strategic and tactical IT planning; system implementation; assessment and evaluation; and facility management and outsourcing. Inteck also provides a complete set of services that support most hospital information system vendors. With staff located nationwide, Inteck employs healthcare information specialists, clinicians, chief information officers and healthcare professionals. For more information on Inteck, please visit [www.inteck-inc.com](http://www.inteck-inc.com).
